Aon Active Health Exchange Drug List

The Aon Active Health Exchange Drug List includes a list of drugs covered by Health Net Health Plan of Oregon (Health Net). This drug list is for **Oregon**. The drug list is updated often and may change. To get the most up-to-date information, you may view the latest drug list on our website at www.healthnet.com/aonhewitt or call us at 1-888-926-1692.

OR AON Active Health Exchange Drug List Updated: January 01, 2023

Welcome to Health Net

What is the Aon Active Health Exchange Drug List?

The Aon Active Health Exchange Drug List or formulary is a list of covered drugs used to treat common diseases or health problems. The drug list is selected by a committee of doctors and pharmacists who meet regularly to decide which drugs should be included. The committee reviews new drugs and new information about existing drugs and chooses drugs based on:

- Safety;
- Effectiveness;
- Side effects; and
- Value (If two drugs are equally effective, the less costly drug will be preferred)

How much will I pay for my drugs?

To figure out how much you will pay for a drug, the abbreviations in the table below appear in the Drug Tier column on the formulary. The copayment or coinsurance level you will pay is shown in the Copayment/Coinsurance column. If you do not know your copayment or coinsurance for each tier, please refer to your Summary of Benefits or other plan documents.

Abbreviation	Copayment/Coinsurance	Description
1	Tier 1 copayment or coinsurance	Generic drugs
2	Tier 2 copayment or coinsurance	Preferred brand drugs
3	Tier 3 copayment or coinsurance	Non-preferred brand drugs and specialty/covered injectable drugs. You may be required to get some drugs from a Specialty pharmacy.
AC	Anticancer drug copayment or coinsurance	Self-administered anticancer drugs. You may be required to get these drugs from a Specialty pharmacy.
GP	You may pay your copayment or coinsurance <i>plus</i> the difference in cost between the brand and generic drugs.	Generics are preferred. A generic version of this brand drug is available. You can get the brand drug, but you may pay your copayment or coinsurance <i>plus</i> the difference in cost between the brand and generic drugs.
PV	\$0	Preventive benefit drugs. These drugs must be covered at no cost to members under the Affordable Care Act. A deductible does not apply.

How do I use the drug list?

Look for your drug in the index at the end of this booklet. The index lists all of the drugs on the drug list. Both brand name drugs and generic drugs are listed in the index. Next to your drug, you will see the page number where you can find your drug.

What if my drug is not on the drug list?

If your drug is not on the drug list, call us at 1-888-926-1692 and ask if your drug is covered. If your drug is not covered, you can ask your doctor to prescribe a similar drug that is covered. Your doctor can ask us to make an exception if he or she feels you need the drug that is not covered. If we approve an exception request for a drug not on the drug list, the non-preferred brand tier (Tier 3) copayment will apply.

What are generic drugs?

A generic drug contains the same active ingredient and works the same way as the brand name drug. Generic drugs are safe and effective, and generally cost less.

Generic drugs are available on the drug list at Tier 1. If you request a brand name drug that has an available generic version, you may be charged a higher cost share.

Are there any limits on my drug coverage?

Some drugs have limits on coverage. The table below provides a description of abbreviations that may appear in the Limits column on the drug list:

<i>Abbreviation</i>	<i>Definition</i>	<i>Description</i>
AL	Age Limit	These drugs may require prior authorization if your age does not fall within manufacturer, FDA, or clinical recommendations.
PA	Prior Authorization	These drugs require prior authorization for coverage, effectiveness, or safety reasons. This means that your doctor must request approval from Health Net before the drug will be covered.
QL	Quantity Limit	These drugs have a limit on the amount that will be covered. Your doctor must request approval for a higher quantity of the drug from Health Net.
RX/OTC	Prescription & Over-the-Counter (OTC)	Certain drugs are available both in a prescription form and in an OTC form. Only prescription drugs are covered by your plan with the exception of some insulins, insulin supplies and some covered preventive drugs.
ST	Step Therapy	You must first try another specific drug(s) before these drugs will be covered.

How can I get an exception to the rules for drug coverage?

Your doctor can ask for an exception to our rules for drug coverage.

- Your doctor can ask us to cover your drug even if it is not on the drug list.
- Your doctor can ask us to make an exception for limits on your drug. For example, if your drug has a quantity limit of 1 tablet per day, your doctor can ask us to cover more.

To request an exception, your doctor can fax a prior authorization form along with a written statement supporting the request to us at 1-800-255-9198.

Are injectable drugs covered?

Injectable drugs are not covered, except for those listed on the drug list. Some injectable drugs are considered “specialty drugs” that must be obtained from one of Health Net’s Specialty Pharmacies.

Are compounded prescriptions covered?

Compounded prescriptions require prior authorization for coverage. If prior authorization is granted, your Tier 3 copayment or coinsurance applies.

Can I go to any pharmacy?

To get the best benefit, you should use pharmacies that are in the network. These pharmacies have a contract with Health Net. Most chain pharmacies and many independent pharmacies are in the network. To find a pharmacy near you, visit our website at www.healthnet.com/aonhewitt or call us at 1-888-926-1692.

If you fill your prescription at an out-of-network pharmacy, the pharmacy may not be able to bill Health Net online so you may have to pay the full cost of your drug. However, you can send us your pharmacy receipt and ask for reimbursement, minus your copayment or coinsurance.

Some injectable and high cost drugs (including anticancer drugs) may be considered “specialty drugs”. These drugs must be obtained from one of Health Net’s approved Specialty pharmacies.

Can I use a mail order pharmacy?

You can use the CVS Caremark Mail Order Pharmacy for the home delivery of most maintenance drugs. Maintenance drugs are those needed for a long term condition. To use the mail order pharmacy, your doctor must provide new prescriptions that allow up to a 90-day supply of each drug. Mail order forms are available on our website at www.healthnet.com/aonhewitt or you may call us at 1-888-926-1692 to request a form.

How often can I refill my prescription?

- For prescriptions written for 10-days or less, you may refill after 50 percent of the supply has been used as directed.
- For prescriptions written for more than 10-days, you may refill after 74 percent of the supply has been used as directed.

If your physician has increased your dose, your pharmacy must be notified of the change. If this change will result in an early refill request, your pharmacy can contact Health Net for an override.

How can I save money on my prescription drugs?

You can save time and money with these simple steps:

- Ask your doctor about generic drugs that may work for you.
- Fill prescriptions at Health Net participating pharmacies.
- Be sure your doctor prescribes drugs on the drug list
- Fill your maintenance drugs through our mail order pharmacy program.

Nondiscrimination Notice

Health Net Health Plan of Oregon, Inc. (Health Net) complies with applicable federal civil rights laws and does not discriminate, exclude people or treat them differently on the basis of race, color, national origin, ancestry, religion, marital status, gender, gender identity, sexual orientation, age, disability, or sex.

HEALTH NET

- Provides free aids and services to people with disabilities to communicate effectively with us, such as qualified sign language interpreters and written information in other formats (large print, accessible electronic formats, other formats).
- Provides free language services to people whose primary language is not English, such as qualified interpreters and information written in other languages.

If you need these services, contact Health Net's Customer Contact Center at 1-888-802-7001 (TTY: 711).

If you believe that Health Net has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance by calling the number above and telling them you need help filing a grievance; Health Net's Customer Contact Center is available to help you.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby>.

jsf, or by mail or phone at: U.S. Department of Health and Human Services, 200 Independence Avenue SW, Room 509F, HHH Building, Washington, DC 20201, 1-800-368-1019 (TDD: 1-800-537-7697).

Complaint forms are available at <https://www.hhs.gov/ocr/complaints/index.html>.

English

No Cost Language Services. You can get an interpreter. You can get documents read to you and some sent to you in your language. For help, call the Customer Contact Center at the number on your ID card or call 1-888-802-7001 (TTY: 711).
